

MENU LADO B

2026 INTERNATIONAL EDITION 1.0

THE ORIGINS OF FRANCESINHA

One theory dates back to the Peninsular War in the early XIX century, claiming that the soldiers of Napoleon's army used to make a sandwich with the most varied kinds of meat available and lots of cheese. At the time, however, according to this version, an essential complement, that the people of Oporto added in the meantime, was not yet included – the sauce.

Currently there is some unanimity in assigning the credit of the recipe to Daniel Silva, an employee at the restaurant A Regaleira, in Oporto, in the early 1950s. Emigrant in France and Belgium a few years earlier, working in the restaurant business, he became familiar with local cuisine and in particular with the famous croque-monsieur sandwich, very popular among the Gauls.

This french toast was the inspiration for the creation of Oporto's Francesinha (literally: little french girl).

THERE'S A NEW BRAND IN OPORTO

"A Melhor Francesinha do Mundo" (The Best Francesinha in the World) is, since 2013, a registered trademark of Lado B Café.

It was created with the purpose of dignifying, preserving and promoting a product that is one of the most striking symbols of the city of Oporto.

More than the brand of a company or a commercial business, it is intended to be the symbol of a whole culture linked in an umbilical way to the city, yet opened to the rest of the world. The main purpose of this registration is to guarantee a level of excellence of the final product, through a meticulous choice of the ingredients, to preserve the identity of the product, keeping intact the genuine characteristics that make it authentic, and finally to promote it worldwide.

It carries a responsibility and a challenge that the owners of the Lado B Café are proud to assume.

UNESCO

Do you know that historic centre of Oporto, with a 2.000-year history, is classified world cultural heritage by Unesco, since 1996?

Hamburger vegetarian (bread) (Lettuce, Tomato, French fries) 10,95

WHY LADO B?

The assignment of the name Lado B (B Side) to this space, as well as the musical atmosphere of its decoration, comes from the fact that its mentor, Artur Ribeiro, was at the time of its founding also the owner of Jo-Jo's Music, the oldest record store in the city of Oporto. This store was the "A side" of his business for almost 30 years.
